

#fightliketania - In Loving Memory of Tania de la Rosa Garzon

Nunc Coepi- A Tribute to Tania de la Rosa Garzon

Tania de la Rosa Garzon, a cherished daughter, sister, granddaughter, cousin, and friend, lived with an indomitable spirit despite the challenges of epilepsy, inspiring those around her with boundless love and determination. At just 22 years old, Tania was called from this physical after a courageous 14-year battle with Epilepsy and passed away due to SUDEP (Sudden Unexpected Death cause by Epilepsy)

Tania's warrior spirit never waned in the face of adversity. She was pursuing a degree in psychology from the University of Cincinnati, with dreams of attending medical school to become a neurosurgeon. Tania excelled in sports, music, and academics, and was fervently passionate about justice, animal protection, and helping those in need. Her vibrant personality and kindness left an indelible mark on everyone she encountered.

Deeply proud of her Mexican heritage, Tania treasured the bonds she created with her extended family in Mexico. She formed especially meaningful relationships with her grandparents and aspired to follow in the footsteps of her grandfathers, both of whom were doctors. Tania's legacy of love, kindness, and perseverance in the face of hardships will forever be remembered by those who loved her. Her life motto, "Nunc Coepi - Now I Begin," reminds us that every day is an opportunity to start anew.
